

DUVEKA.MODULE

Drying agent management for export packaging.

duveka Dissant adds proper drying agent and dessicant management to Microsoft Dynamics 365 Business Central. Track which packaging needs how much, when it was added and how it appears on the documentation.

Microsoft Dynamics 365 Business Central - duveka GmbH - May 2026

Drying agent management for export packaging.

duveka Dissant adds proper drying agent and dessicant management to Microsoft Dynamics 365 Business Central. Track which packaging needs how much, when it was added and how it appears on the documentation.

Drying agent as part of the packaging spec.

Export packaging often requires drying agents to protect goods during long sea transport. duveka Dissant treats the drying agent as part of the packaging specification, not as a side note. The required quantity is calculated from the packaging volume and the destination, so the right amount lands in every box.

Documentation customs and customers expect.

Authorities and customers expect proof that the right protection is in place. duveka Dissant produces the supporting documentation for shipments and links it to the underlying packing order. Combined with duveka DMS, the evidence is filed, accessible and available when someone asks.

Built into the duveka packaging stack.

duveka Dissant works alongside duveka Packaging, duveka Versandeinheiten and duveka Tour. The drying agent calculation is part of the same packing order, the same shipment plan and the same final invoice. There is no parallel system to maintain.

What duveka Dissant covers.

duveka Dissant is a focused module for export packers and packaging manufacturers handling moisture sensitive goods.

- o Drying agent calculation per packaging unit
- o Linkage to packing orders and shipments
- o Documentation suitable for customs and customers
- o Integration with duveka Packaging and DMS
- o Tariff and unit support for different agent types

Who needs it.

Export packers protecting machinery and electronics on long sea routes. Packaging manufacturers serving industrial export businesses. Logistics providers responsible for end to end shipping including the protective measures inside the box. duveka Dissant makes drying agent handling a structured, documented part of your operations.

power on your business.
